

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 4: LLMs and Prompt Engineering for Decision Support

Student Name: _____ Ramatou AMIDOU _____

Student ID: _____ 30802027 _____

GitHub Repository Link: ___ <https://github.com/amidouramatou-png/lab-4-llm-decision-support>

Date Submitted: ___ 16/08/2026 _____

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	Yes
Estimated percentage of the work influenced by AI	% 8
Did you attach evidence of AI use where applicable?	Yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
ColabGemini	To better understand the exercise for the assignment	Please can you explain it to me	explain this to me # TODO: Write BRIEF_PROMPT — it receives the letter AND your extracted JSON, and must output: # 1. Strengths (bullet points, grounded in the letter) # 2. Risks / red flags (bullet points) # 3. Missing information the officer should request	It helps me to know and understand the expectations

			# 4. Suggested next step (e.g. "invite for interview", "request documents", # "flag for senior review") — NOT "approve" or "reject". # Give the model an explicit instruction that final decisions are made by humans.	
ChatGPT	To debug and check if all my work is done correctly	Is the assignment correct? Did you answer all the questions?	I uploaded the end document	It helps me check it quickly to save time.

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
AI-generated draft		
Prompt history	Is the assignment correct? Did you answer all the questions?	
Screenshot of AI interaction		

	<pre>----- NameError Traceback (most recent call last) <ipython_input_1008/008767094.py> in <cell line: 0>() 20 connect_point = 0 21 ----> 22 for letter_id in GOLD.keys(): 23 price_value = GOLD[letter_id][Fields] 24 extracted_value = extracted_results[letter_id].get(Fields) NameError: name 'GOLD' is not defined</pre> I see the problem clearly. The error is: <pre>NameError: name 'GOLD' is not defined</pre> This means Colab does not currently have the <code>GOLD</code> variable loaded. Your extraction results are fine, but the problem is that the cell containing <code>GOLD = {...}</code> was not run in the current Colab session. Fix it Go back to Section 2 — The Dataset: Loan Application Letters. Run the cell containing: <pre></> llab_4_llm_decision_support File</pre> This is what i did , check if I answered everything Worked for 24s > Yes. I checked the actual .ipynb file you uploaded, cell by cell. Overall, you have completed almost everything required, but there are a few things I would fix before submitting. What you have completed <table><tr><th>Requirement</th><th>Status</th></tr><tr><td>Part 0 — Colab API setup</td><td>✓</td></tr><tr><td>Part 1.1 — <code>ask_llm()</code></td><td>✓</td></tr><tr><td>Part 1.1 — API response + token usage</td><td>✓</td></tr><tr><td>Anatomy of a call reasoning</td><td>✓</td></tr><tr><td>Part 1.2 — $5 \times \text{temp } 0 + 5 \times \text{temp } 1.2$</td><td>✓</td></tr></table>	Requirement	Status	Part 0 — Colab API setup	✓	Part 1.1 — <code>ask_llm()</code>	✓	Part 1.1 — API response + token usage	✓	Anatomy of a call reasoning	✓	Part 1.2 — $5 \times \text{temp } 0 + 5 \times \text{temp } 1.2$	✓	
Requirement	Status													
Part 0 — Colab API setup	✓													
Part 1.1 — <code>ask_llm()</code>	✓													
Part 1.1 — API response + token usage	✓													
Anatomy of a call reasoning	✓													
Part 1.2 — $5 \times \text{temp } 0 + 5 \times \text{temp } 1.2$	✓

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	Yes
Any use of AI tools has been clearly declared in this form.	Yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	Yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	Yes
My AI usage does not exceed 25% of the entire work.	Yes
I understand that undeclared or excessive AI use may be treated as academic misconduct.	Yes
